Indiana's preliminary unemployment rate is 4.3% for October, compared to National rate of 5.0%

Frank O'Bannon, Governor Craig E. Hartzer, Commissioner

Dept. of Workforce Development Indiana Government Center South 10 N. Senate Avenue Indianapolis, IN 45204-2277 Phone: 317/232-7670 FAX: 317/233-4793 TDD: 317/232-7560 http://www.dwd.state.in.us

An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for October is 4.3 percent, seven-tenths of a percentage point below the national rate of 5.0 percent, Craig E. Hartzer,

Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during October 2001 was 2,995,600.

Indiana's October unemployment rate was lower than Illinois, 5.0 percent; Kentucky, 5.0 percent and Michigan 4.7 percent. Only Ohio was lower at 4.1 percent.

"With October's numbers, we are starting to see the tragic events of 9-11 and the slowing of the economy reflected

in our numbers. We believe the next couple of months will, unfortunately, see more Hoosiers unemployed due to this dramatic decline in our economy," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,991,800, a decrease of 49,300 from one year ago and 9,500 less than last month. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 649,600 in October, a decrease of 33,800 from last year. Motor vehicle manufacturing accounts for 93,300 jobs, 7,900 less than one year ago. Manufacturing of motor vehicle parts totals 59,800. Industrial machinery manufacturing in October accounts for 69,100 Hoosier jobs, 600 less than September.

Construction employment totals 157,200 a decrease of 900 from last month. Of that, heavy construction reports 19,300 jobs, a decrease of 100 from September.

Service producing employment totals 2,179,000 in October, 13,600 less than last year. Transportation and public utilities total 145,300, 2,700 less than September.

Retail trade totals 559,600, 5,400 less than a year ago. Of that, general merchandise stores report employment of 84,100, or 2,000 less than last year. Service sector employment, such as business services, computer and data processing, totals 763,100 in October, which is 2,500 less than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are

Industry Payroll Employment

Selected Categories	October 2001	Change from Sept. 2001	Change from Oct. 2000
Goods Producing	812,800	-7,400	-35,700
Construction	157,200	-900	-1,900
Manufacturing	649,600	-6,500	-33,800
Service Producing	2,179,000	-2,100	-13,600
Retail Trade	559,600	+2,700	-5,400

able and available for work) totals 3,131,200 in October 2001. An estimated 2,995,600 Hoosiers are employed and 135,600 are unemployed.

Indiana's labor force for October 2000 totaled 3,093,800. Hoosiers employed one year ago is estimated at 3,020,400, and October 2000 unemployed in Indiana totaled 73,400. Indiana's estimated unemployment rate one year ago was 2.4 percent, compared with the national unemployment rate of 3.6 percent in October 2000.*

*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at http://stats.bls.gov/launews1.htm.
